

## **PRIIPs KID Discussion Paper – call for responses**

Following the recent adoption of the PRIIPs KID regulations, the three European Supervisory Authorities (ESAs) have now issued a joint Discussion Paper looking at options for the content of KIDs, focusing primarily on the calculation and presentation of costs, risks and performance. You can find the DP at <https://www.esa.europa.eu/documents/10180/899036/JC+DP+2014+02+-+PRIIPS+Discussion+Paper.pdf>

The deadline for responses is 17 February 2015.

At Kii Hub, we plan to produce a summary of the main issues raised in the DP over the coming weeks. However, we are aware that PRIIPs cover a wide range of product types and you may have specific issues for some of your products. The DP runs to 114 pages and contains 59 specific questions on which the ESAs are looking for input.

Kii Hub will be submitting a response to the DP and we urge you to do so as well. To help you with this, we will be holding meetings during January to discuss the issues raised in the DP, to run through the questions and to cover any particular issues you may have. This should allow enough time to produce responses before the deadline.

Given the time constraints, we will arrange meetings on a first-come-first-served basis. We are hoping to meet as many interested parties as possible in the New Year. We are also keen to speak to providers of as many different product types as possible, so will be in touch with a number of companies in any event.

To arrange a meeting to go through the DP and its implications, please email us at [info@kiihub.com](mailto:info@kiihub.com) or get in touch with your usual Kii Hub contact as soon as possible.
